Resulted in the Death of  
Fourteen and Possibly,  
More Passengers.

## MISTAKEN ORDERS

Five Dead and Others Buried  
in a Negaunee, Mich.,  
Mine Cave-In

## WALL FELL ON MEN

New York, Jan. 8.—Two passenger  
trains collided this morning in the  
New York Central Tunnel at Sixty-  
fifth and Park avenue, resulting  
in the death of fourteen and probably  
more passengers and serious injury  
to a score of others.

It was on the rear end coach that  
the dead and injured were on the  
express train from Danbury, Conn.,  
on the New York, New Haven &  
Hartford line.

Without an instant's warning the  
engine of the New York Central and  
Harlem train crashed in to the car  
and ploughed half through.

Fire engines and ambulances were  
hurried to the scene but it was half  
an hour before the rescuers could  
make way into the smashed coach.

Up to 10 o'clock 14 dead had  
been recovered.

A. G. WALTON, New Rochelle,  
N. Y.

N. G. DIAMOND, New Rochelle,  
Y.

A. E. MILLER, New York.

OSCAR MEYEROWITZ, New  
York.

FOUR UNIDENTIFIED,  
E. C. HENSDALE,  
WM. LEHS,  
F. H. GOGARDO,  
WM. FORBES,  
WM. HOARD,  
A. M. PEPRIN, all of New Rochelle.

The tunnel filled rapidly with  
smoke and steam and the work of  
rescue was done under difficulties.  
The firemen lowered ladders into  
the tunnel through the street opening  
and descended.

Every moment it was feared the  
telescoped engine would explode and  
the steam was hissing all about the  
wreck but the firemen had no thought  
of danger.

In the telescoped car they found  
a mass of mangled and bleeding hu-  
manity. Probably forty persons  
were there and it seems marvelous  
that all had not met death before  
they were rescued.

The living were struggling desper-  
ately to extricate themselves and  
crying piteously for aid fearing the  
flames would soon catch them.

Four or five of the injured were  
so seriously hurt that it is expected  
that they will die. The rear car  
was literally smashed into splinters.  
There was a mistake in orders which  
is being investigated.

**BELIEVED ALL ARE DEAD.**

Mine Disaster at Negaunee, Mich.,  
May Have Many Victims.

Negaunee, Mich., Jan. 8.—The  
search for the seventeen men entombed  
in the Negaunee mine was continued  
all night, but up to noon only  
one body has been recovered. It is  
believed they have all been suffocated.  
The most strenuous exertions  
are being made to accomplish their  
release.

**Little Hope for the Men.**

Isipeming, Mich., Jan. 8.—The  
Negaunee iron mine was yesterday  
the scene of the most distressing disaster  
that has ever taken place on the Mar-  
quette iron range. A cave-in occurred  
from a point where a large area of the  
surface dropped early last fall, and  
several workmen are entombed in a  
level less than 500 feet from the sur-  
face. It is not known at the mine just  
how many have fallen victims, though  
it is thought that not less than eight  
and possibly a dozen or more lives will  
be lost. Up to 8 o'clock p. m. six of the  
men had been accounted for. One of  
these, Angelo Ricardo, was rescued  
alive in the afternoon at 4 o'clock,  
and at 7:30 in the evening the body of  
Jacob Herela, a Finlander, was re-  
covered.

**Partial List of Victims.**

Others known to be in the mine are:  
William Williams, pit foreman; John  
Sullivan, pumpman; John Pearce, John  
Pearce, John Pascoe, miner; Eric  
Lofte, Will Hakeman, Angelo Cullila,  
two unknown Finlanders, two un-  
known Swedes. The walls caved in  
during the noon hour. There were in  
the neighborhood of thirty men em-  
ployed in the drift where the men are  
entombed, but many went to the sur-  
face to eat their dinners. Some of  
those who remained under the ground  
were in the habit of doing so rather  
than climb the ladders to the surface.  
Ricardo, the rescued miner, reports  
that all the men were in the pump  
house near the shaft eating their din-  
ner when the ground came down with-  
out warning, sweeping timbers and ev-  
erything else before it. The concus-  
sion drove Ricardo some distance up  
a rise, where he remained in safety  
until rescued. He and one other work-  
man could be heard calling for help  
some time before the rescuers reached  
him. It is thought that Herela, whose

body was recovered, was the other man  
whose voice was heard.

**All Hope Given Up.**

The cave-in will have a very dam-  
aging effect on the mine. The pump-  
ing apparatus in the old portion of the  
mine is disabled and the levels are  
rapidly filling with water. The shaft  
is also twisted so that the cage can-  
not go down, to within eighty feet of  
where the men are entombed.

**Costly Mine.**

The Negaunee mine has been the  
most difficult property in the district  
to handle. Last fall a cave-in under-  
mined the engine house, blacksmith  
shop and dry goods house. Since then  
new buildings have been erected on  
more solid ground some distance from  
the opening. The new shaft completed  
a few months ago was the hardest  
piece of engineering of the kind ever  
attempted in the district. Nearly 300  
feet of quicksand was passed through,  
and the continuous flow of water to the  
shaft was over 5,000 gallons a minute.  
It was the most expensive shaft ever  
sunk in the Lake Superior region, the  
cost from the time the ground was  
broken until the first skip of ore was  
hoisted being more than \$1,000,000.

## CHICAGO SCHOOLS MAY BE CLOSED

Lack of Money to Keep Them Running  
Is Raising a Storm of Comment  
in Windy City.

Chicago, Jan. 8.—The board of edu-  
cation's ultimatum that the schools  
must close because of lack of money to  
keep them running is creating a storm  
of comment from Chicago's leading  
women educators. One and all agree  
that the impending crisis is unequalled  
for and might easily have been aver-  
ted. Many apparently feasible solu-  
tions of the problem were voiced to-  
day by women prominent in the edu-  
cational field. Mrs. Harriet van der  
Vaart, chairman of the industrial com-  
mittee, Illinois Federation of Wom-  
an's Clubs, said: "The prospect of  
the schools closing is terrifying to  
mothers whose children must either  
be thrown into the streets to run wild  
or be forced to rely upon a home-made  
education. I can discover no real  
reason why money should not be  
forthcoming."

## HILL AND OTHERS ARE SUMMONED

Will Be Forced to Appear Before the  
Inter-State Commission to Tes-  
tify in Merger Case.

Chicago, Jan. 8.—The Inter-  
state Commerce commission, sitting  
here announced today that it would  
ask the United States Circuit court  
to issue subpoenas for J. J. Hill, E.  
H. Harriman and other railroad mag-  
nates to compel them to appear be-  
fore the commission and tell what  
they know about the Northwestern  
railroad merger or be punished for  
contempt of court. The commission  
had intended to begin an investiga-  
tion today but was compelled to ad-  
journ to the 24th because of the re-  
quest sent Hill, Harriman and others  
to appear.

## MR. CLEVELAND IS MUCH BETTER

Former President Able to Leave His  
Room and Move About the  
House.

Princeton, N. J., Jan. 8.—Former  
President Cleveland, though not yet  
fully recovered from his illness, is  
much improved in health. Mrs.  
Cleveland said today: "Mr. Clevel-  
and is still weak from his illness but  
he has become strong enough this  
week to leave his room and come  
down stairs. He will not, however,  
be able to go out-of-doors until the  
weather becomes considerably milder."

local upholsterer. She has an income  
of \$10,000 yearly, and lately gave \$50,  
000 to a Baltimore Catholic charity. Be-  
fore her husband died, he sued Mc-  
Laughlin for alienating Mrs. Carroll's  
affections.

## CANAL BILL IS UP IN CONGRESS

Figures Disclose Facts in  
the Superiority of the  
Panama Route.

## SAFE AND SHORTER

Nicaragua Canal is Declared  
to be the Better by Chair-  
man Hepburn.

## QUICK ACTION ASKED

Washington, D. C., Jan. 8.—An ex-  
tended debate on the Nicaragua  
canal bill was the feature of the  
House session today, the principal  
speeches being made by Mr. Hepburn  
chairman of the interstate and for-  
eign commerce committee, which re-  
ported the measure, and by Mr. Mann  
of Illinois.

Immediate passage of the present  
bill selecting the Nicaragua route was  
advised by both speakers, they say-  
ing that the Panama offer should  
make no difference, and the only re-  
sult would be to delay the begin-  
ning of the work.

**Points of Superiority**  
An estimate on the points of su-  
periority of the Panama canal route  
over the Nicaragua route has been  
made as follows:

**Would Give President Power**

Mr. Morris, (Minn.) gave notice  
that at the proper time he would of-  
fer an amendment to authorize the  
President, if he could procure the  
property and rights of the Panama  
company for \$40,000,000 if conces-  
sions could be procured from Colom-  
bia, and if the Walker commission  
so recommended, to purchase and  
proceed to complete the Panama  
Canal.

The debate on the bill was opened  
by Mr. Hepburn. For two hours  
he held the floor, replying to ques-  
tions concerning the offer of the Pa-  
nama company to sell its property and  
franchises to the United States for  
\$40,000,000.

In the United States Mr. Hepburn  
said, thirty-seven States had in-  
structed their congressional delega-  
tions to support a bill for an inter-  
oceanic waterway; all political parties  
had aligned themselves in favor of it;  
the subject had been discussed in con-  
gress, scientific societies, the news-  
papers, and on the hustings until  
there was now a volume of literature  
on the subject never before devoted  
to a single project.

**Recalls Panama Canal History**  
Referring to the efforts of the Pa-  
nama Canal company to build a canal  
by private enterprise he summed up  
their efforts as follows:

"The company raised \$255,000,000  
by the sale of \$435,000,000 of bonds,  
and after eight years the managers  
of the company found themselves  
with the work less than one-fourth  
completed, penniless, and bankrupt  
in money and character."

The disaster of this company, he  
said, proved conclusively that the  
work should be undertaken by gov-  
ernmental agency.

## JANESVILLE BOY ON VARSITY CREW

Frank W. Kimball Has Entered the  
Competition for a Seat on  
the College Boat.

Madison, Wis., Jan. 8.—The Uni-  
versity opened after the holiday vaca-  
tion yesterday. For the next few  
weeks the interest will be mostly on  
the outcome of the baseball team  
which has a good schedule ahead of  
it. The team is considered a strong  
one although it was beaten last Sat-  
urday night by the players from Yale.

The crews expect to work this week  
on indoor practice. New rowing ma-  
chines have been sent for and Coach  
O'Day expects them the latter part  
of the week. All of last year's men  
will report for practice and most of  
last year's Freshmen crew will be  
in competition for seats on the "Var-  
sity" crew. Frank W. Kimball of  
Janesville is one of the candidates  
for a seat on the "Varsity" crew. He  
rowed last year on the freshman  
crew.

## FOURTH NATION IN THE WORLD

Population of the United  
States According to 1900  
Census, is 84,233,069.

## GROWTH IS RAPID

This Nation Has Grown  
Nearly Sixteen-Fold in  
a Hundred Years.

## GREAT BRITAIN FIRST

Washington, D. C., Jan. 8.—The  
Census bureau today issued a report  
announcing the population of the  
entire United States, including all  
cutting possessions, was 84,233,069  
in the census year 1900. This is  
itemized as follows:

Continental United States, or United  
States proper, 75,994,575 (hereto-  
fore announced); Philippines, 6,  
961,339, being the estimate of the  
statistician to the Philippine com-  
mission; Porto Rico, 953,243; Hawaii,  
154,001; Alaska, 63,592; Guam, 9,000;  
American Samoa, 6,100. Persons in  
the military and naval service of the  
United States proper, 91,219.

The report announces that the  
twelfth census only extended to Alas-  
ka and Hawaii outside of "continental  
United States," but that the figures  
for the rest of the United States do-  
main are taken from the best avail-  
able sources.

**Wonderful Growth in Century**  
These figures are based on the enu-  
meration of June 1, 1900. The re-  
port says:

"The total population of the United  
States at the close of the nineteenth  
century was about eighty-four and  
a quarter million. As the popula-  
tion of the United States at the begin-  
ning of the century was about five  
and a third million, the nation has  
grown nearly sixteen fold in 100  
years."

"There are only three countries  
which now have a greater popula-  
tion than the United States—viz:  
China, the British Empire, and the  
Russian Empire. China and the  
British Empire each has probably be-  
tween 350,000,000 and 400,000,000,  
or together nearly one half of the total  
population of the earth."

**France is in Fifth Place**  
"France, including its dependencies,  
is the fifth country of the world in  
order of population, and has about  
eighty-three and two third million,  
or almost the same number as the United  
States. Of these over 25,000,000  
are in African dependencies, nearly  
17,000,000 in Asia, and 2,000,000 in  
Madagascar. These five most popu-  
lous countries together include over  
two-thirds of the estimated popula-  
tion of the world, which is placed by  
the best authorities at between 1,  
500,000,000 and 1,600,000,000."

## EIGHTEEN BRITISH KILLED.

Somerset Light Infantry Suffer Loss at  
Amersfoort.

London, Jan. 8.—The war office has  
received the following dispatch from  
Lord Kitchener, dated Johannesburg,  
Jan. 6: "Plumer, Spens and Poulney  
engaged Chris Botha and Oppenman on  
Jan. 3 and 4 north of Amersfoort, and  
drove the Boers from their position.  
But on Jan. 4 a portion of the British  
force under Major Valentia of the  
Somerset Light Infantry suffered se-  
verely. Major Valentia and eighteen  
men were killed and five officers and  
twenty-eight men wounded. The Boers  
left nine men dead on the field. Colonel  
Cohenbender surprised Field Cornet  
Louw's laager at Watervale, Jan. 5,  
killing five men and capturing twenty-  
nine." Lord Kitchener mentions other  
minor surprises and captures. General  
French reports that the Boers in Cape  
Colony are so reduced in numbers as  
to require only an elaborate police sys-  
tem to keep them in check. The week's  
totals of Boer casualties are thirty-six  
men killed, nine wounded, 261 made  
prisoners, and seventy-two surren-  
dered.

day the Central and South Americans  
opposed to the Chilians held frequent  
meetings to decide on the method of  
procedure under which they will intro-  
duce the arbitration plan into the con-  
ference. If they cannot find a form  
satisfactory to the other delegations  
they will probably withdraw. The  
Chilians also say that in whatever  
form the compulsory arbitration plan  
is reported to the conference they  
will quit.

Jan. 1, 1904, with a governor appoint-  
ed by the president, a legislature of  
two houses and with two Philippine  
commissioners to represent the Fili-

In other respects the Cooper bill  
follows that of Senator Lodge, but  
in the important features of estab-

larges on the bill drawn at the war

## WANT WHITEHEAD FOR GOVERNOR

SENATOR'S ABLE SPEECH AT MADISON CAUSES FURORE.

Milwaukee Papers State That the Janesville Man Has Become the Favorite Candidate of the Stalwarts for the Governorship — Dennett Said To Be Out of It.

The speech of Senator John M. Whitehead on taxation before the Six O'clock club on Monday night has created a furore throughout the state. The Milwaukee papers are especially agitated and their deductions in regard to the matter are interesting to Rock county people. The Milwaukee Journal says:

Senator Was on Trial. "One thing the speech clearly indicates is that the senator was on trial, and that his utterances make him an acceptable candidate for the Stalwart section of the republican party. In fact the developments today make it clear that the League has at last settled upon the man upon whom it will unite in opposition to Governor LaFollette.

"It has been understood for some time that the leaders of the Stalwart movement—the League fellows—were looking towards him. All the time the Half-Breed organ at Madison and other LaFollette leaders have tried to raise doubts as to where he stood on the subject of taxation, claiming that he stood with the half-breeds in their scheme to abandon tax reform and conduct the campaign on the single cry of 'Tax the railroads a million a year more!' But this Madison speech decides the matter against them.

Stalwarts for Whitehead. "Meantime the managing Stalwarts are expressing satisfaction with the speech of Mr. Whitehead and tacitly admitting that it removed some doubts they entertained of his availability as a candidate because of his supposed rather radical views on the subject of taxation.

"It can now be set down as a fact that John M. Whitehead will be the candidate of the managing Stalwarts and also that Fred A. Dennett will be supported for the present at least by a lot of long-headed men who may be a large factor in the next state convention. But Whitehead will doubtless be the winner."

The Free Press, the half-breed organ says:

"Stalwarts were busy yesterday trying to make political capital out of the taxation speech which Senator Whitehead made Monday night at Madison before the Six O'clock Club. While nobody could be found who assume the responsibility publicly for a statement that the sentiments expressed by the Janesville senator stood for the tax plank of the Tammany League platform, in private several admitted that there was nothing in the senator's speech that the league could not endorse. While refusing to say the speech which the senator made was an authorized expression of the sentiments of the league, all the Tammany men were busy booming Whitehead for the gubernatorial nomination. They said that Whitehead stood 'for what LaFollette pretended to stand for,' and that Whitehead's speech was a great card for the Tammany campaign, notwithstanding the glittering generalities that it contained. They said that it was not too strong and yet strong enough to catch votes and that Whitehead was now the most available man to announce as the stalwart candidate for governor. They were even some who in their enthusiasm declared that 'LaFollette was beaten and that Whitehead would be the nominee,' but they did not want to be quoted by name.

"There were also stories that Whitehead's speech had been edited by the eleventh floor aggregation before it was delivered, but this, of course, was denied by the stalwarts. Some of them said they had not read the speech. Although they had talked about it all day.

## TEARFUL OR CHEERFUL?

Whether a woman is tearful or cheerful depends not on what she has materially, but what she is physically. Many an indulgent husband is driven almost to despair by the tearful outburst of a wife who has "every thing she wants." He wants to know what's the matter. But the wife can't tell. She only knows that she is depressed and despondent.

Such a condition is usually related to some form of womanly disease. The mental depression has its corresponding womanly weakness. Doctor Pierce's Favorite Prescription changes tearful women to cheerful women by curing the diseases which cause physical weakness and depression of spirits. It establishes regularity, dries unhealthy drains, heals inflammation and ulceration, and cures female weakness.

Mrs. Alice Adams, of Laboratory, Washington, D. C., says: "With many thanks I write to let you know how I am. I can say by God's help and your help I am well. I have taken six bottles of Dr. Pierce's Favorite Prescription and two of his 'Golden Medical Discovery' and I can do all my work. I can't praise your medicine too highly. I will recommend your medicines as long as I live. If any one doubts this give them my address."

"Favorite Prescription" makes weak women strong and sick women well. Accept no substitute for the medicine which works wonders for weak women.

Keep the bowels healthy by the timely use of Doctor Pierce's Pleasant Pellets.

was about Whitehead as the coming candidate of the stalwarts. Little was heard of Walter Alexander or Former Senator Dennett. Some of the stalwarts, it is said, think Mr. Dennett could not be trusted to carry out their programme and Mr. Alexander, while voted a good fellow, was shy of getting into a rather hopeless contest. Mr. Whitehead, it was said, was ambitious to be the stalwart candidate and there was a disposition to rally around him."

## GEORGE M. McKEY ELECTED CAPTAIN

Janesville Fire Police Held Their Annual Meeting Last Evening—The Secretary's Report.

George M. McKey, will captain the Janesville Fire Police for the ensuing year, and look after the interests of that organization. Mr. McKey is one of the most enthusiastic members of the company and his selection for captain showed good judgment on the part of his associates. E. B. Helmstreet was re-elected secretary, making twenty-eight consecutive years he has held this office which speaks volumes for his efficiency. The annual meeting of the police was held last evening at the East Side engine house. Officers for the ensuing year were elected as follows:

Captain—George M. McKey.  
1st Lieut.—W. H. Palmer.  
2d Lieut.—J. B. Whiting, Jr.  
Secretary—E. B. Helmstreet.  
Treasurer—S. C. Burnham.  
Steward—George D. Simpson.  
Wagon Committees—F. L. Clemons, C. D. Stevens, J. M. Bostwick.  
Fire Line—L. F. Wortendyke, R. J. Whitton, W. P. Sayles.

On invitation of W. H. Palmer the annual inspection of the company will be held at his home.

The annual report of the secretary being the forty-seventh since the organization of the company, was read by Secretary Helmstreet. It shows that during the year 1901 the wagon had been called out 101 times as follows: fire runs, 72; ambulance 32.

The fire runs were: To actual fires, 36; grass on fire, 5; fire out before department arrived, 7; false alarms, 24. Of the 41 fires the patrol extinguished 12 with the Babcock extinguisher, all of which were put out without any hose being laid. Extinguishers were used in a number of others. The total number of extinguishers used was 72; covers were used at three fires. The apparatus is in complete order and ready for any emergency.

The receipts and expenditures about balance this year so that no assessment will be made on the members. A new set of rubber covers have been ordered from New York and will add much to the value of the equipment.

The committee on fire line reported it in first class condition and that nothing was needed at present. The wagon committee gave a complete list of the property belonging to the company and their present condition. They recommended the purchase of one or two rubber blankets for the ambulance and a stock of charges for the extinguishers.

Secretary Helmstreet also incorporated in his report a paper prepared by Miss Jessie Spencer on the Janesville fire department and read by her at the high school last year. It gives a complete history of the department from 1853 down to the present time and is very interesting.

Entertained Travelling Men.

As a token of the appreciation of the work done by the traveling salesmen of the Parker Pen Company, six of them were handsomely entertained at an elaborate dinner at the home of George S. Parker, 401 Court street. W. F. Palmer and George S. Parker were the hosts and those who participated in the feast were W. F. Pilscher, New York City; C. H. Rider, Toledo, Ohio; H. F. Thomas, Seattle, Wash.; H. F. Weber, Minneapolis, Minn.; W. H. Collins, Winfield, Kan.; and B. K. Rohn, St. Paul, Minn.

Jubilee for Ben Hur.

D. W. Gerard, of Crawfordville, Ind., supreme chief of the Tribe of Ben Hur will be in the city on next Friday evening when he will give a public address in the auditorium at the Y. M. C. A. building. It had been expected that Mr. Gerard would be present at the next regular meeting of Janesville Court, Tribe of Ben Hur which will be held on Thursday evening and at which officers will be installed and a large class of new members initiated. Mr. Gerard found it impossible to be in the city on Thursday evening so the plan of having him lecture to the people on Friday evening was adopted. He is said to be an eloquent and interesting speaker and a cordial invitation is extended to the public to hear him.

## MUSICAL-LITERARY GROWING STEADILY

Seven New Members Taken Into the Club Last Night—Large Attendance and Full Program.

That the Musical-Literary club is steadily growing in popularity was evidenced last evening by the large attendance at the meeting at the Christ church parish house and by the fact that seven new members were received into the club. There has been no meeting this winter where names of new members have not been proposed.

At the business session of last evening's session an amendment to the by-laws was proposed, which will be voted on at the next meeting and which provides that the names proposed for membership shall be referred to a committee on membership, consisting of the officers and committees before being presented to the society to be voted on. It was also voted to refer the matter of the annual concert to a special committee, consisting of the officers and standing committees.

John G. Rexford, president of the club, presided during the business session. At its close, Mrs. J. F. Pender of the program committee took charge of the program which had as its beautiful opening number a mandolin solo, "Les Patineurs," by Waldenfel, exquisitely played by George Baumann. The piano accompaniment was faultlessly played by Miss Mae Treat.

The balance of the instrumental part of the program consisted of piano solos. Miss Hazel Underhill, of Edgerton, played "Scherzino" by Moszkowski, with brilliancy and feeling, the peculiar movement of the selection making it especially pleasing to the audience; Miss Evelyn Packer played "Grillen" by Schumann with power and expression; Miss Elva Crawford played a peculiar melody by Hans Lelder beautifully and Chester Parish gave an exquisite rendition of Raff's "Spinning Song," playing with beautiful delicacy.

The vocal part of the program was especially fine. Harry P. Robinson sang a double number, "Rose Fable," by Hawley and "Song of a Heart" by Tunkson, both beautiful tenor solos in which his sympathetic, melodious voice was heard with delightful effectiveness. Mrs. J. F. Sweeney played his accompaniment.

Another pleasing double number was given by Miss Elizabeth Palmer who sang a lullaby by Grieg and one by Dudley Buck. In both numbers, especially the latter one, her rich contralto voice was heard at excellent advantage and her accompaniments were beautifully played by her sister, Mrs. M. O. Mount.

Miss Belle Angell made her first appearance before the Musical-Literary society last evening and sang prettily "O Beautiful Star" by Kellie. Her accompaniment was played by Mrs. Sweeney who also played charmingly for the solos by Mrs. John G. Rexford and by Miss Ruby Garlick, of Beloit. Both ladies were compelled to bow acknowledgment to the insistent applause which followed their singing. Miss Garlick delighted her hearers with an impetuous, dashing selection "The Thrustle" by Maude Valerie White and Mrs. Rexford sang "Elsa's Dream" from Wagner's "Lohengrin," using her sweet and beautifully trained voice so easily that the number was irresistibly charming.

One of the best numbers on the program was the closing one, the tenor solo "For All Eternity" by Angelo Mascheroni. The beautiful selection was admirably given by E. O. Smith and its beauty was enhanced by the violin obligato played by George Baumann with Miss Treat at the piano.

The literary part of the program consisted of a musical melange, a collection of interesting articles concerning music read by Miss Charlotte Prichard. The melange concluded with the story of the writing of Mozart's symphony.

## SUDDEN DEATH OF MR. JOHN HOLTON

Pioneer Settler of Rock County Passed Away Monday, in the Town of Fulton.

John Horton, a well-known and highly respected citizen of Rock county, died at his home in the town of Fulton last Monday, death resulting from a stroke of paralysis which he suffered two days before. Deceased was seventy-seven years old and was a native of Ireland, having been born in Cavlin county. He was a sailor and served his adopted country in the civil war. He first enlisted in the service of the United States in New York city in 1858 as a mariner on the United States steamship San Jacinto, under C. Armstrong. Later he enlisted on board the United States steamship Vermont, serving until Dec. 22, 1862, the expiration of his service when he was honorably discharged at the Marine Barracks, Brooklyn, New York. He was a loyal Grand Army man, being a member of the Edgerton Post.

Mrs. Horton died about ten months ago. Nine children are left to mourn their father's death. They are John Horton, of this city; Mrs. Harry Holdridge, of Watertown; Mrs. George Altessy and William Horton, of Huron; Mrs. Bernard McDonough, Mrs. George Gesard, Mrs. Harry Langworthy and Richard and Frank Horton, all of Edgerton.

The funeral services will be held tomorrow morning, from the home in the town of Fulton at 10 o'clock and from St. Joseph's Catholic Church at Edgerton at 10:30 o'clock.

Miss Mary E. Dolan Dead. Death visited the home of Mr. and Mrs. Peter Dolan, 1 Washington street this morning and bore away the lovely spirit of one of the daughters of the home circle, Miss Mary E. Dolan, who for the past six months has been a sufferer from tuberculosis.

Miss Mary was nineteen years of age and when she closed her eyes in the final sleep this morning, earth was deprived of a life of happiness and bright promise. Miss Dolan was a graduate of St. Joseph's academy and of the Janesville High school in the class of 1900. Cheerful and happy in her disposition, she made many friends and when sickness came she bore it with beautiful patience. Her death has brought deep sorrow to her bereaved parents and to her sisters, Miss Margaret and Katherine Dolan, who will have the sympathy of a host of friends.

A lazy liver makes a lazy man. Burdock Blood Bitters is the natural, never failing remedy for a lazy liver. Ordinary household accidents have no terrors when there is a bottle of Dr. Thomas' Electric Oil in the Medicine chest. Heals burns, cuts, bruises, sprains. Instant relief.

Dr. Wood's Norway Pine Syrup seems especially adapted to the needs of the children. Pleasant to take; soothing in its influence; it is the remedy of all remedies for every form of throat and lung disease. "Itching hemorrhoids were the plague of my life. Was almost wild. Doan's Ointment cured me quickly and permanently, after doctors had failed." C. F. Cornwell, Valley Street, Saugerties, N. Y.

Kohinoor Club. Mrs. John Flynn entertained the members of the Kohinoor club very pleasantly last evening and in addition to the customary entertainment at the card tables she gave her guests a happy surprise. When the ladies of the club had assembled a brightly decorated and illuminated Christmas tree was brought in and each lady was presented with a stocking filled with candy and toys to which was attached a card bearing a quotation descriptive of the person for whom the gift was intended. The reading of the cards caused much amusement and the Christmas tree was enjoyed as heartily as though it were not a little late in the season.

The pleasure over the tree was followed by enjoyment just as keen over the games of clench at which Miss Margaret Cunningham won the first prize while the consolation prize went to Mrs. Fred Smith. Both winners were obliged to cut for the prize. During the evening delicious refreshments were served.

If the Baby is Cutting Teeth. Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, cures the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. 25c a bottle.

Rinkard is under sentence to be hanged in the Indiana prison north, Jan. 17, for the murder of his wife, whom he shot.

Pope Leo Is Not Dying. London, Jan. 3.—The alarming rumors given out from Rome in regard to the Pope being "only just alive, but not ill," are unfounded, according to later reports. He said mass yesterday and later held a reception.

## ENGLAND HAS GONE TO CORONATION MAD

Every Newspaper in the United Kingdom Filled with Matters Relating to the Ceremony.

Not a paper, daily or weekly in London, is without a coronation article. Everybody who writes at all is having his say on the subject and those that are not writing about the affair are talking about it. The ceremony will take place in Westminster Abbey, within the walls of which every monarch since William the Conqueror, has been crowned. Prior to that, says one assiduous who has been delving into the literature on the subject, several localities gained notoriety from this historic scene.

Seven of the Saxon kings were crowned on the King's Stone, still to be seen on the market place at Kingston-on-Thames. Stonehenge witnessed the coronation of Arthur, while Winchester Cathedral was afterwards the general seat of the Saxon coronations. Richard the First was crowned twice, first, before his captivity, and secondly, upon his return to the kingdom. Several other kings for one reason or another, had a double ceremony. Henry the Third was one of them.

The second function was "in order," says an old chronicler, "that now after the extinguishment of all editions, factions it might be said he was crowned by the general consent of all the estates and subjects of the realm." The doubtful title of Henry the Fourth was confirmed by a double ceremony, and Henry the Sixth was twice crowned while he was still a child—first at Westminster, and again at St. Denis, in France. With the coronation of Richard the First we have the earliest circumstantial account of the ceremonial, and from Hoveden we learn how amid a long series of ceremonies the king was crowned, after he had been duly anointed, for which he was stripped to his shirt and drawers.

The coronation of Henry the Fifth is in a sense unique, being the only one represented in the structure of the Abbey, where the ceremony is sculptured on each side of his chantry; and Edward the Fifth, alone of our English kings, died uncrowned when all the preparations had been made for the ceremony, even to the wildfowl for the banquet.

The accession to the house of Hanover in the person of George the First was made the occasion of much splendor, and national enthusiasm was never more hearty than at the coronation of George the Third and Queen Charlotte, one of the most interesting of these peculiarities being the unseen attendance of his rival to the throne, Prince Charles Edward. The coronation of William the Fourth cost about one-fifth of the money lavished at the inauguration of George the Fourth; and, according to contemporary accounts, at no previous coronation had the representatives of foreign powers made such an imposing display as at the coronation of Queen Victoria.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors produced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proved catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. **Bulgarian Prince Yelko to Premier.**  
Sofia, Jan. 8.—The dissolution of the Sobranje has caused astonishment. Premier Karaveloff said he was willing to remain in office if the dissolution were decided upon. Prince Ferdinand, however, opposed the measure. Therefore the decree of dissolution is surprising. The key of the situation is found in the desire of the prince to obtain a homogeneous ministry resolved to carry through the loan. The new Sobranje cannot convene until March. The Bulgarian Hantes may provide the gold for the February coupons, which are payable in London. The officials have not been paid this month.

**Drama Barred from Church.**

One member of the board, Captain Tom Ryman, a convert of the Rev. His view at first prevailed, though all the other members of the board at first favored leasing the building to the Vendome manager.

**Isn't it Worth 25c. To Be Cured of Constipation**

People who suffer from habitual constipation with all its attendant ills, clogged stomach and bowels, sluggish liver, heartburn, indigestion, and thin and impure blood, are too apt to believe that the only remedy is violent purgatives. The contrary is the case. Such cathartics, even if they do move the bowels, are irritating and griping, leave the stomach inflamed and enfeebled and the constipated condition recurs with greater difficulty of cure and the sufferer constantly growing worse. There is a laxative that moves the bowels without pain or griping, cleanses the stomach, sharpens the appetite, stimulates the liver, strengthens the nerves, and purifies the blood, while its marvellous tonic properties tone up the entire system and keep it healthy.

**Laxakola Does It**

Its remarkable tonic properties reach every organ—the liver, kidney, and stomach, nerve, heart and brain—and removes the cause of your debilitated condition. This is the only way to secure an absolute and permanent cure.

Laxakola is the only medicine for babies, is purely vegetable and its action is gentle, speedy and effective. For coated tongue, simple fevers, colds, chills and languid feeling it is the ideal medicine.

It tastes good. Children like it and ask for it.

Laxakola, the great tonic laxative, is not only the most efficient of family remedies, but the most economical, because it combines two medicines, viz: laxative and tonic, and at one price. No other remedy gives so much for the money. At druggists, 25c. and 50c., or send for free sample to LAXAKOLA CO., 123 Nassau Street, N. Y., or 234 Dearborn Street, Chicago.

Trade supplied by King's Pharmacy and People's Drug Store.

## AT THE VATICAN.

The fact that the United States is to send an emissary to the Vatican, has caused the report that a permanent minister was about to be appointed to represent the government at the court of Rome. There is no truth in the report.

Conditions existing in the Philippine Islands render it necessary for the United States to have a perfect understanding with the Catholic church, so that titles to real estate may be perfected. For this reason the pope will be consulted.

The rebellion that this government inherited, when Dewey landed his troops at Manila, was a native uprising against the friars, who had not only controlled local government for many generations but who were the exclusive land owners of all desirable property. The natives were so burdened with taxation and cruelty that they rebelled, and the rebellion had become so violent that of the 1,000 friars who had been in control, but 400 were left on the island, and many of these were locked up.

The government, while credited to Spain, was a friars' government, and while they were driven out of the country by natives and many of them killed, the title to land was vested in the organization, and much of it is in that condition today.

The reign of the friars is a thing of the past, but the problem that confronts the United States is how to legally secure possession of these landed rights, so as to sell to the natives, who are willing to buy. It will doubtless be necessary for the government to purchase and if this is the case the transaction will be made through the Roman church at headquarters. The investment is perfectly safe from a financial standpoint, as the land can be readily sold. As a matter of public policy and honesty, the Catholic church must be considered, and through that organization titles perfected.

The religion of the islands for centuries has been Catholic. Under the dictation of the friars it became a travesty, and so burdensome, that toleration was no longer possible. But with the advent of a new civilization, conditions have changed. The state, and not the church, becomes the controlling power, and while Catholicism will thrive under the intelligent direction of the American priests, other religions will gain a foothold, and the church and state will work together harmoniously.

The accomplishment of this important work is the mission of the American emissary, who is shortly to visit the Vatican.

## ON A GOOD BASIS.

The opening of a new year, so far as business enterprises are concerned, is always more or less critical. The payment or passing of dividends on the part of corporations, and the showing of the balance sheet in private ventures, tells a story that always reflects on the opening pages of a new year.

It is gratifying to know that in almost all legitimate lines of trade, whether of great magnitude, or of small proportion, that the year recently closed, was found to be most satisfactory. Capital has met with generous returns, while labor has found steady employment at good wages.

After a week devoted to settling accounts and getting ready for renewed activity, the feeling that pervades in commercial and industrial atmosphere, is wholesome, and the outlook for 1902 is very encouraging. While conditions abroad are not so satisfactory, there is every reason to believe that the home market, and home enterprises will prosper during the year.

The times are good and there is every reason why every artisan should improve them. It is possible for almost every man in this enlightened age, and especially in this land of opportunity, to become a capitalist, if he will. All it needs is a determination to lay by a little every week. There is nothing that contributes so largely to the contentment of toil, of whatever nature, as the habit of saving.

The discontented toiler is almost invariably a spendthrift. Put \$100 in the bank, if it requires a year to save it, and life takes on a different aspect. This is a good year to commence.

## MISREPRESENTED

The sensational report, sent out by some rattle-brained correspondent, that the president had insulted General Miles, at the White House, was so unfair, that its correction should be given wide publicity.

The reprimand was gentlemanly and courteous, and would have been administered in private, had General Miles consented to a private interview. That it was merited, was generally conceded, and the fact that the general has since dined with the president at the White House, indicates that relations are not very badly strained.

It was said that Admiral Dewey

was also insulted, and yet the admiral has since called on the president to bid him good-bye, before going south for the winter.

The report was a farce, that should never have been printed. The commanders of both the army and navy are subordinate officers. If discipline or respect is to be maintained they must be held accountable to a higher power.

The president is commander-in-chief of these departments, and he possesses the wisdom as well as the courage, to command. Public sentiment endorses him, and no one has been injured.

## SENATOR WHITEHEAD'S ADDRESS.

Senator Whitehead's address on Taxation, delivered last Monday evening before the Six O'clock club at Madison, was an exhaustive resume of the question that is exciting so much attention. Fairness and equality, both to corporations and individuals, was the keynote, and research and sincerity characterized his utterances. While the senator believes in reform, he is not erratic, and he argues that time and patience are necessary in solving a question of such great magnitude.

The tax commission he regards as vital to success, and he commends the work already accomplished. He suggests that if neighboring states possessed similar equipment, so that a conference could be held, that interstate interests, so far as railroad property is concerned, could be intelligently discussed, and justice to both the states and corporations thus secured.

He argues that the question is broader than politics, and that the tax payers of the state, regardless of party, are vitally interested. He does not believe that the "hidden property," of which so much is said, amounts to much, and says that a farm mortgage adds nothing to the value of the farm, which is assessed for its full value. He believes that corporations and the people should understand each other and work together on a basis of justice and equality.

The senator is sound on the question, and his influence will be felt for good.

Milwaukee has lost another good man and the people of the state share sympathy. Geo. W. Wisniewski enjoyed an acquaintance that was more than state wide. He has been prominently before the public for many years, and his friends were as numerous as his acquaintances. Blessed with a generous heart and genial temperament, he won his way and his untimely death will be sincerely mourned throughout the state.

Kipling has added to his notoriety by writing a poem on the South African war, in which he criticizes the English government for the course pursued. The poem was recently published in the London Times, and has occasioned some sharp criticism. The people have long since discovered that Mr. Kipling is not infallible.

The Philippine question which now commands the attention of congress, promises to be more difficult to settle than was the Porto Rican question. There are many important features to be considered and no mistake should be made in the final adjustment. Better take plenty of time to consider.

Congress will provide the death penalty for the murder of presidents. Congressman Jenkins of Chilpeva Falls is author of the bill. The anarchist who commits the deed expects death as a reward, and the legal penalty will contain no terrors.

German exports to the United States show a marked falling off for the year 1901, primarily in sugar. The American home product is rapidly coming to the front on account of the beet industry.

The South African war goes on without interruption and England finds it a rat hole for money, as well as a graveyard for many gallant men.

Kruger, the South African Boer president, who was at one time said to be worth \$20,000,000, is now practically penniless. The fortunes of war have not dealt very kindly with him.

The "Olco" bill is likely to receive prompt attention, as congress is besieged for early action. If the measure is passed the people will have a chance to choose between dairy and process butter.

The validity of the ice tax bill will be tested by the supreme court at an early date.

## PRESS COMMENT.

Harvard College has picked up the canteen that the war department threw out of the army, and as a result the proprietors of hotels who were patronized when "bouts" with stews were held, are as discomfited as the keepers of a "hog ranch" near the army posts are delighted. Evening Wisconsin.

Appleton Post: Some of the newspapers and correspondents are saying that our former esteemed contemporary, "Uncle Hod" Taylor makes some pretensions as a "farm-

er." This will be a surprise to many of his old Wisconsin friends, but all are willing to admit that "Uncle Hod" is a pastmaster in the business of "sawing wood."

Fond du Lac Commonwealth: The Milwaukee Journal has discovered that former senator F. A. Dennett, is to be the stalwart candidate for governor, now that Walter Alexander has declined to enter the race. If the discovery is made good there will be no occasion for regret in this section of the state, where Mr. Dennett's friends are legion.

Fond du Lac Reporter: It can be said to the credit of the men who befriended Admiral Schley, that they have not done so by destroying or criticizing Admiral Sampson. He has received his share of praise for being a noble and brave naval officer.

It will be noticed that the papers that protest the loudest against the iniquity of subsidizing the press are the ones whose virtue is subject to suspicion. Milwaukee Sentinel.

The La Follette faction deems every thing it does right, and every thing anybody else does wrong, and therefore does business with an amount of satisfaction seldom equaled. Milwaukee Journal.

When a public man is criticized there should be some justification for it, but what justification has there been for the ill-natured and scurrilous criticism visited by some Republican papers. Racine Journal.

Papa—"See that spider, my boy, spinning his web. Is it not wonderful? Do you reflect that, try as he may, no man could spin that web?" Johnny—"What of it? See me spin this top! Do you reflect, try as he may, no spider could spin this top?" Tit Bits.

## What is to Be the Compensation?

What has Robert M. La Follette to offer the "fair minded democrats" whom he asks to join him in an independent political movement which is intended to keep him in the executive office for another term? Are these "fair minded democrats" so verdant as to expect that there will be anything "in it" for anyone but La Follette and a select few of his adherents? Is there a democrat in the state who is so soft and easy that he will listen to the siren song of La Follette under the circumstances? Finding that it is almost certain that his own party will turn him down at the next state convention, the governor of this state, who professes to be a good republican, and who objects to the charge repeatedly made, that he is infected with the virus of populism, makes a desperate attempt to interest "fair minded democrats" in his affairs, for they are his affairs and not the affairs of the republican party.

If there is a "fair minded democrat" in Wisconsin who cannot see through the transparent scheme of the wily Robert we miss our guess. Maunston Star.

A Body Blow. The appointment of Henry C. Payne, of Milwaukee, as postmaster general, must have been, and from the president who so much resembled Gov. La Follette, too. It must seem strange to them that the president is so devoid of good judgment as to wish a stalwart to occupy so intimate a position as a member of his cabinet. However, the stalwarts, Henry C. Payne's friends, are rejoicing over this recognition of his ability. Hartford Press.

Killed on Railroad Track. Houston, Tex., Jan. 8.—Late last night a Southern Pacific train ran down and killed Joseph Paskey, aged 40, and John Powers, aged 60. The men were walking on the track and did not hear the train.

## PROMINENT BELLOIT CITIZEN IS DYING

ANSON P. WATERMAN GIVEN UP BY HIS DOCTORS.

He Has Been a Conspicuous Figure in Beloit and Rock County for Half a Century—Was Treasurer of Beloit College and Held Other Important Positions.

Beloit, Wis., Jan. 3.—(Special)—The condition of A. P. Waterman, treasurer of Beloit college, is critical. He is not expected to live but a short time and he may die before night. At three o'clock this afternoon he was still unconscious and sinking rapidly.

**Career of Mr. Waterman**  
Mr. Waterman has been conspicuous among the more prominent business men of Beloit for half a century and his career was characterized by unswerving integrity. He was conservative, positive and never charitable and sympathetic.

Mr. Waterman was born in South Ballston, N. Y., Jan. 15, 1819, and was the son of Daniel and Phoebe (Hollister) Waterman. His father was a captain of artillery in the war of 1812 and was stationed at Ogdensburg.

His ancestors were English from the rural districts. Asa Waterman, deceased's grandfather, fought under Benedict Arnold in the Revolutionary war and carried Arnold wounded off the field of battle at Stillwell, and he often bemoaned the fact that he assisted in saving Arnold's life, as the young soldier was a hero in the eyes of Asa Waterman who wished he might have died a patriot rather than a traitor.

Came to Beloit in 1851.

Anson P. Waterman grew to manhood in his native state, working on a farm and later clerking in a store at Schenectady, N. Y. He conducted a hardware business for himself at Phelps, N. Y., for twelve years, when, imbuing the spirit of the time "to go west," he came to Beloit in 1851 and bought an interest in a hardware store. Three years later his family joined him in Beloit, and this city was ever after his home, except that for a period of thirteen years he spent more or less time in St. Louis, where he had business interests. For thirty years Mr. Waterman was in the retail hardware business here. He was married Dec. 31, 1840, to Sally Hubbell, of Phelps, N. Y. Of their four children, three survive: Arabella married Major D. H. Lee, a lawyer in St. Louis, who died in 1877; Annie married Charles E. Whitman, a manufacturer of St. Louis; Jennie married Carroll S. Gregory of this city. Mr. and Mrs. Waterman celebrated their sixtieth wedding anniversary with a reunion at which all their children and grandchildren were present. Their sixty-first anniversary occurred December 31st, 1901, but owing to Mr. Waterman's illness there was no general celebration.

**Treasurer of Beloit College.**  
Mr. Waterman's business and social interests have been varied. He had been for forty-one year a trustee of the Northwestern Mutual Insurance company of Milwaukee, being one of the original members of the company, and always one of its most ardent advocates. He enjoyed the marvelous success of the company as much as though it was his own affair. He was for years a trustee of the Wisconsin State Insurance company. He was a republican in politics and had a broad view of national affairs. He was mayor of Beloit in 1867, '68 and '69. He was an elder of the Presbyterian church for sixty years. He had frequently been a delegate to the general assembly of the church. Forty-two years ago he was elected a trustee of Beloit college and had held a place on the board ever since, and eighteen years ago he became acting treasurer of the college, which he loved as only such a man as Mr. Waterman could love, and was revered by the students as well as the faculty and trustees of Beloit college for his kind spirit, and his devotion to the school. The infirmities of age caused him to resign his position of treasurer of the college a few months ago.

**His tastes.**  
Fine dairy butter. Grubb. Smoked Finnan haddies. Grubb. Large smoked white fish. Grubb. Head lettuce, leaf lettuce, spinach, radishes and green onions. Grubb. Now peanut butter. Grubb. Reduction on rubber goods at the Chicago Store.

His tastes. Grubb. Hoyt's best comedy "A Bunch of Keys," will be at the Myers Grand tonight.

The price on the \$50 store at the Fair store for Thursday, Jan. 3, will be \$37.50.

W. W. Winton, district passenger agent for the St. Paul road, was in the city over night.

W. J. Hall & Co. have in this issue a list of grocery articles at the small price of 9 cts. each. Hall & Co. intend to make things move in the grocery line if good goods at cut rate figures will do the work.

The eighth appearance for R. J. Bennett of Chicago at the Y. M. C. A. building with his superb stereopticon lectures. A series of three will be given at the popular price of 10 cents. Date, Monday, Tuesday and Wednesday, Jan. 13 to 15. Shows the finest views in the world. Men, women and children can come. This is the object for making the price ten cents.

**Two Killed; Two Missing.**  
Gray, W. Va., Jan. 3.—Norfolk and Western express train No. 4 from Columbus, O., to Norfolk, Va., met in collision here yesterday morning a northbound through freight and both trains were wrecked. ## LOCAL MILKMEN FORM A COMBINE

Bower City Milk & Cream Company, with a Capital Stock of \$10,000 Organized Last Night.

The Bower City Consolidated Milk and Cream company with a capital stock of \$10,000 was organized in this city last evening. The idea advanced in the formation of such a company is to consolidate all the milk routes of the city and bring them under one management whereby some system may be maintained in the delivery of milk.

At present there are about twenty routes in this city. They have no distinct territory to travel and often one will see from five to six different wagons delivering milk within a block of each other. The new company will also cut down the length of time used for delivery from six to seven hours as is now necessary, to three or four.

Another aim of the company will be to furnish absolutely pure milk, from cows that have been inspected by the state veterinarian and whose milk has been given the creamery test. All these improvements are not going to make the milk any higher in price but their customers will get better service and better milk for the same money.

The company do not expect to be able to secure all the routes about the city and expect to have considerable opposition from the independent dealers, but think they will be able to secure the bulk of the trade. Eleven of the routes about the city were secured last evening and several more will be secured in the near future. The offices of the company will be located at 11 South River street.

Those who are in the combine are Walter Rice, Fred Rice, Cha Sykes, Ed. McDermott, A. W. Slocum, E. E. Bullock and L. J. Fletcher.

The organization reports the purchase of two more of the independent dealers today.

The party was a delightful surprise on Miss Robena and was planned and successfully executed by her mother and sister, Miss Irma. The birthday dinner was an elegant affair and was followed by an evening of music and games.

## SOME UP-TO-DATE FORMAL DINNERS

THEY ARE MARKED BY MAGNIFICENCE THIS SEASON.

More Gold Services Used—Round Tables Decorated with Lace—Great Quantities of Flowers—Fewer Courses Than Formerly—Some Very Fine China.

The formal dinner occupies first place just now among social entertainments for the reason perhaps that per capita it is one of the costliest ways of entertaining. One hundred-dollar-a-plate dinners given in the private dining rooms of well known restaurants are of not infrequent occurrence and society in its home is equally extravagant.

An invitation to a formal dinner means more also than one to an entertainment at which more guests are present. The entire visiting list of a hostess may be considered when sending out invitations for a reception, musicale or dance, but her dinner guests are carefully chosen.

Like many another social custom the formal dinner is subject to the whims of fashion. Decorations, the number of courses, the shape of the table, the manner of serving, sometimes change with the season. Nowadays, quantity has given place to quality, and the commonplace process of feeding and being fed is more or less idealized by means of a magnificent display of gold or silver plate, china, glass, linen, embroidered and lace shown to the best advantage against a background of exquisite flowers, orchestra music, handsome individual souvenirs and frequently an after-dinner programme of music or vaudeville or both by high priced professionals.

Fashion prefers that the formal dinner of from twelve to twenty-four guests shall be cooked and served by the servants of the hostess at her own house, a feat no longer so difficult to accomplish as formerly owing to the improved equipment of the New York fashionable household. When a hostess is particular to have one waiter for every two or three guests, additional men may be hired for the occasion, but they are under the immediate supervision of the family butler.

Informal dinners and dinners to a large company of young people which are to precede a dance frequently take place at a restaurant but the distinctly formal dinner is served in the home.

The round table is now preferred to all others and as many as twenty-four guests may be seated at one table. Circular table cloths of all sizes up to five yards in diameter, of the most renowned weaves and newest designs, are now imported to meet the requirements of the fashion.

Fancy lace table cloths, by the way, are no longer in vogue. Linen damask has the lead and the only approach to ornamentation is a one-inch border of open work on the very edge of some of the cloths of Austrian weave. The newest designs in those of Scotch and Irish manufacture are wide stripes and very large floral patterns. The stripe perhaps would better be described as bands on account of the width, and they are arranged sometimes in equidistant lines around a perfectly plain centre, or in narrower bands toward the middle with a wider band for a border.

Chrysanthemums quite seven inches in diameter—of a prize winning variety, evidently—scattered over the cloth form one of the most favored of the floral patterns.

A single lace centre piece from twenty-seven inches to one yard in diameter is laid over the cloth and the handsomer the lace the better. Crepon lace for the moment, is in high favor for the purpose.

No bit of color, except that furnished by the china and flowers appears on the fashionable dinner table of this winter for the reason doubtless that never before have flowers played such an important part in dinner giving. Not indeed on the table itself, where little but a low center mound of blossoms is permitted, but in every other part of the dining room, transforming it sometimes into a miniature garden.

Ropes of foliage and flowers are draped above the table, gorgeous blooms are crowded into tall vases which fill every available niche, palms and flowering plants are banked in the corners. Some hosts have gone so far as to carpet the room with leaves and moss, but they are exceptions.

In addition to a low centre piece of flowers, a few blossoms are sprinkled over the cloth instead of being placed in the end vases, once popular, which have now yielded their places to candelabra. From four to eight of these, according to the size of the table, each with from four to six branches, grace the board, topped with shades matching the particular color scheme of the occasion.—New York Sun.

Valparaiso, Jan. 8.—Senator Yanez, minister of foreign affairs, was interrogated last night in the chamber of deputies with reference to the rumor that the Argentina government had given Chile twenty-four hours in which to reply to the question as to the withdrawal of the police from the Ultima Esperanza territory. He stated that the dispute between the republics was in exactly the same position as on Dec. 25, when the modus vivendi was signed.

### TEN VALUABLE HINTS.

Here is what the buttermaker at the Glenville (Minn.) creamery sent out to his patrons: The following suggestions are sent to all patrons for mutual benefit. If we are to make the best grade of butter that will sell at the highest price we must have only pure sweet milk; hence it is to your interest that we make this fancy article, and with your co-operation this can be accomplished. Trusting that every patron will unite with us in this effort, we beg to offer the following suggestions:

First—Thoroughly brush the cow's flank and udder before milking.

Second—Strain carefully through wire and cloth strainers.

Third—Don't allow cans to remain in the stable.

Fourth—Don't mix night's and morning's milk before cooling.

Fifth—Keep milk in cold water.

Sixth—Leave covers up until the milk is cooled, then stir and close the covers.

Seventh—Don't leave skim milk standing in cans.

Eighth—Use brush and warm water for washing cans, then rinse with scalding water and stand in the sun.

Ninth—Don't use wooden milk pails.

Tenth—If you know of any patron that is violating the rules of common cleanliness in caring for his milk it is your duty to yourself and fellow patrons to report the same at the creamery and such information will be held in the strictest confidence.

Two Killed in Powder Explosion.

## ECZEMA'S

ITCH IS TORTURE.

Eczeema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczeema in any form is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes nor other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

### BAD FORM OF TETTER.

"For three years I had Tetters on my hands, which caused them to swell to twice their natural size. Part of the time the disease was in the form of running sores, very painful, and causing me much discomfort. Four doctors said the Tetters had progressed too far to be cured, and they could do nothing for me. I took only three bottles of S. S. S. and was completely cured. This was fifteen years ago, and I have never since seen any sign of my old trouble."—Mrs. J. JACKSON, 1414 McGee St., Kansas City, Mo.

S. S. S. neutralizes this acid poison, cools the blood and restores it to a healthy, natural state, and the rough, unhealthy skin becomes soft, smooth and clear.

cures Tetters, Erysipelas, Psoriasis, Salt Rheum and all skin diseases due to a poisoned condition of the blood. Send for our book and write us about your case. Our physicians have made these diseases a life study, and can help you by their advice; we make no charge for this service. All correspondence is conducted in strictest confidence.

## A Strong Woman

Iowa City, Iowa, Aug. 15, 1900

My wife was sick for three years. We tried everything without relief and spent much money. My wife tried Wine of Cardui and four bottles cured her. She took two more bottles, knowing she would have to work hard during the hay harvest. She attended to all her household duties and loaded and unloaded all the hay. This medicine gave her strength. Formerly she was weak and tired and could hardly get about, but since she has been taking Wine of Cardui she feels better and stronger than when 20 years of age. JOS. A. EISENHAFER.

Mrs. Eisenhafer had tried everything during her three years sickness and had spent considerable money. She was weak and could hardly get about for three years before she took

## WINE OF CARDUI

Now, after taking the Wine of Cardui, she can work with her husband in the hay field. That is hard work, but it is not as injurious to a woman's health as labor in stores, factories and offices where thousands of girls are closely confined year after year. With the aid of Wine of Cardui a woman can do any reasonable work and enjoy good health. The health that Wine of Cardui brings makes a woman vigorous in body and mind. Freed from those terrible devastating pains a woman grows well and strong naturally. Wine of Cardui regulates the disordered menstruation and cures leucorrhoea, falling of the womb and periodical pains in the head and back caused by standing or sitting a long time in the same position. Theodore's Black-Draught puts the bowels, stomach, liver, kidneys and blood in proper shape. Greatly increased strength and endurance is the natural result. Most cases are cured quickly. All druggists sell \$1.00 bottles of Wine of Cardui and 25 cent packages of Theodore's Black-Draught.
